

Aritco HomeLift

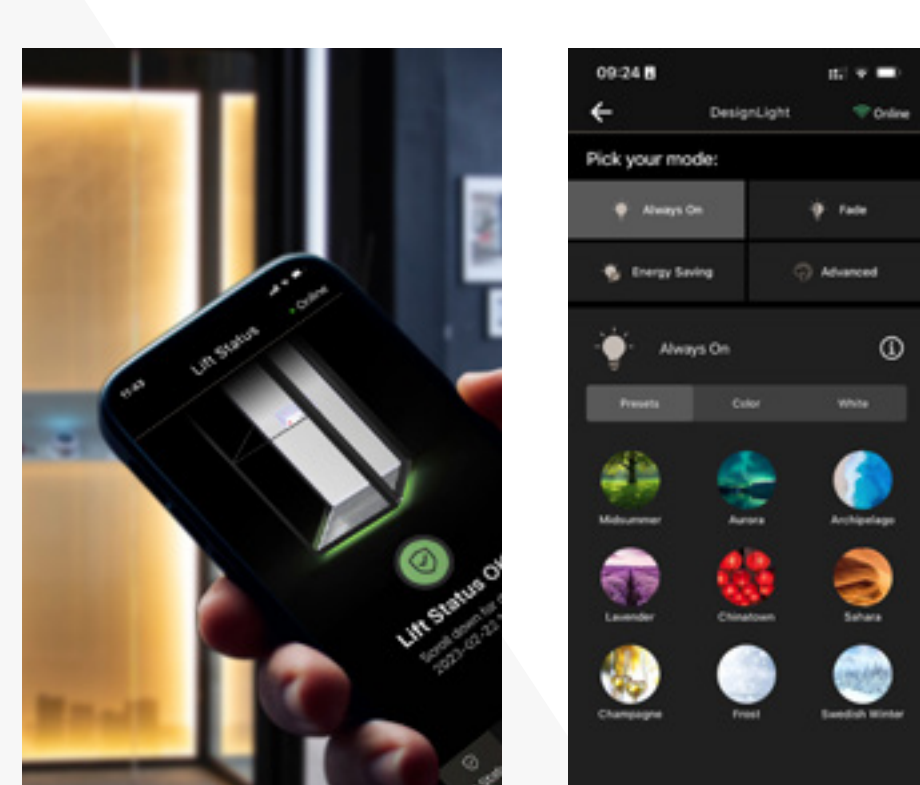

Aritco HomeLift comes with luxury design features like the DesignWall, a backlit wall with selected art from prominent Scandinavian designers or you can select your own personal picture. It also includes Design-Light, with state-of-the-art lighting that you can control via the SmartLift app. Select between white cool and white warm light and colored light. The ceiling has two light pattern to select from, Stars and Sphere. The lift is equipped with our SmartSafety system, with safety features that anticipate situations and prevent accidents. The covering panels can as option be customized and covered with a plastic film (Design-Panels) that makes them look like either wood (Pine, Oak or Mahogany) or concrete.
